Get the file that corresponds to your platform below.

EUROPA is packaged as set of shared libraries, which should satisfy most users' needs. Get the static libraries bundle only if you intend to use EUROPA that way. If your platform does not appear here, you can build EUROPA yourself as described here

Note: Binary bundles for EUROPA-2.2 on Windows and Solaris will be posted soon

EUROPA 2.2	Linux	Linux-static-libs
	Mac-ppc	Mac-ppc-static-libs
	Mac-intel	Mac-intel-static-libs
	Windows	Windows-static-libs
	Solaris	Solaris-static-libs
EUROPA 2.1.2	Linux	Linux-static-libs
	Mac-ppc	Mac-ppc-static-libs
	Mac-intel	Mac-intel-static-libs
	Windows	Windows-static-libs
	Solaris	Solaris-static-libs
