[Case splits now enhanced with boolean semantics](#)

[Native Resolution and Opaque Links \(DiceRolls\)](#)

[Mango Eclipse plugin High School Code example \(CarRecall\)](#)

[Mango Eclipse plugin introductory demo](#)

[Mango paper for JPF Workshop 2011](#)

[Screen shot: Mango "wakes up" inside the Workbench](#)

[EclipseCon 2011 Slides and Transcript](#)

These links are getting a little stale now, but do provide some perspective for the tool development.

[Eclipse Debugger perspective with Mango semantics \(prototype\)](#)

[Case generalization.](#)

[Slides.](#)

[Example 1: Hypotheses, conjectures, and loop invariants.](#)

[Example 2: Trading in conjectures for hypotheses.](#)

[Example 3: Automatically generated report.](#)

[Example 4: Local forward flow.](#)

[Example 5: Prototype deductive system.](#)
